About Rochon Corporation

Rochon Corporation is a premier commercial construction company focusing on General Contracting and Design Build Construction. Our industry leading projects include public and private projects in the following sectors: Educational, Office, Industrial, Multi-family, Religious and Retail building markets since 1985.

Our organization is led by four Senior level Principals with integrated expertise and leadership. Support staff includes Project Managers, Assistant Project Managers, Superintendents and superior Office Support team members.

We value client relationships and believe honest and straightforward communication is essential. Additionally, precise cost estimating is critical for setting the path and direction of the entire project. Our process secures reliable budget estimates and we only work with subcontractors we have confidence in.

Maintaining communication and positive working relationships during a project and beyond project completion is an uncompromising corporate value in our team's dedication. Rochon's mission is to deliver superior customer service, uncompromising quality and a finished project that exceeds our client's expectations.

The Rochon Charter School Advantage!

Rochon is Minnesota's leading charter school contractor with over 11 charter schools serviced and education construction experience in excess of 3.4 million square feet. When you choose Rochon, you are choosing:

- Effective project managers who are cost conscious and value minded
- Dedicated field superintendents focused on quality workmanship
- Clear communication and a working relationship with client and contractors that will ensure success in meeting project timelines and completion goals
