

## School Supply Lists

The 2022-23 school supply lists are provided as well as the link to the School Tool Box (grades K-8). Families are asked to be fluid if any additional items are required by the Minnesota Department of Health and Education as fall decisions are communicated. Our goal is to provide families with a list of tools that will set them up for a successful school year.

Grades K-8: Order PTO School Tool Kit supplies through September 2022.

Grades K-12: Families may also use the lists below to purchase items independently.
