

Assessments

Assessments at Eagle Ridge Academy are intentionally administered for several purposes. Assessments are used for:

- **Instructional Planning:** Results are used by teachers to help plan instruction and monitor student progress.
- **School Improvement:** Results are used by the district to evaluate programs and plan improvements.
- **Accountability:** Results are used to fulfill the requirements of state and federal legislation as well as our charter contract.
- **College and Career Readiness:** Results are used to indicate readiness for post-secondary success, inform course selection and identify career interests.
